Education

UC Santa Cruz—*B.S. in Computer Science*, GPA: 3.57   Jun 2019

- **Courses**: Data Structures and Algorithms, Computer Systems and Assembly Language, Discrete Mathematics, Algorithms and Abstract Data Types, Probability Theory
- **Dean's Honors List**: Winter 2017, Spring 2017

Experience

Endorsify—*Software Engineer Intern*   Jul 2017 – Aug 2017

- Developed the new landing page and UI components for several features of the web app
- Built a data visualization dashboard of 481 users by using D3 (jQuery, TopoJSON)
- Contributed to getting accepted into two startup accelerators (Nex3, UpTech)
- Technology: HTML5, CSS3, JavaScript, PHP, Laravel, MySQL, Git

UC Santa Cruz—*Course Tutor/Grader*   Apr 2017 – Present

- CMPS 10: Intro to Computer Science, CMPS 12A: Intro to Java Programming (Accelerated)
- Attend labs of over 30 students and help them individually with their programs
- Write bash and python scripts to grade assignments, saving over 10 hours of work

Projects

Stevensuh.us—*Personal Website*   Sep 2017 – Present

- Built a static portfolio website to showcase my work and build an online presence
- Developed UIs and experimented with WebGL and animation by utilizing JS libraries (three.js, TweenMax)
- Implemented AJAX transitions, improving load speed by 67% through reducing HTTP requests
- Technology: HTML5, CSS3, JavaScript, jQuery, three.js

Skills

- Language—Java, JavaScript, Python
- Library/Framework—D3, three.js, React, Redux
- Markup—HTML5, CSS3
- Tool—Git, Photoshop, After Effects

Extracurricular

Udemy—*Online Learning Platform*

- Actively take courses on multiple subjects during my free time
- **Currently Taking**: Modern React with Redux, Learn and Understand Node.js, Python and Django Full Stack Web Development
